Guide to WCs

Which WC Pan is right for you? See our options below.

Close Coupled (C/C)

A standard Close Coupled WC, the cistern is visible for ease of access, and mounted directly to the pan.

Close to Wall

Similar to a C/C WC, but the pan extends back to fit flush with the wall so that all pipework is hidden from view.

Comfort Height

A C/C or BTW pan with a raised height, more comfortable for those who are taller or have mobility issues.

Back to Wall (BTW)

The cistern and pipework are hidden within the wall or a WC unit - requires a separate concealed cistern.

Wall Hung

Mounted to the wall with pipework hidden inside - requires a concealed cistern or an in wall frame.

Guide to Basins

Looking for a vanity unit with an integrated basin? See our furniture range from page 26.

Pedestal

A standard basin resting atop a full pedestal which supports the basin and conceals the pipework.

Semi Pedestal

A wall mounted basin taking advantage of a smaller pedestal to conceal pipework.

Semi Recess

A low profile basin mounted into a worktop with the pipework concealed inside a vanity unit.

Countertop

A standalone basin which sits on a worktop. - pair with a hi rise basin mixer (see page 120) for a stylish solution.

All our ranges feature soft close seats, with a quick release mechanism for easy removal for cleaning. Certain ranges also feature a choice of slim or wrap seats, for more customisation in your suite

As the name suggests, Rimless WCs lack the traditional rim, making them easier to keep clean, as well as saving water via direct flush technology. They look sleek and stylish too! Look for this symbol for rimless pans.

How to Order

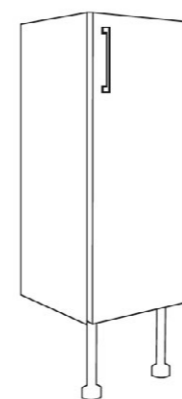

- Select a finish, as shown above, and a carcass (available in white or grey).
- Choose from our selection of base units (335mm deep), combining units of various sizes to fit your available space. Remember to include a WC unit for back to wall WCs, and consider a tall unit for additional stylish storage space. If desired, choose wall units to complement your base unit combination.
- For areas where the carcass is exposed (the feet of base units or ends of any unit type), select from filler panels, and panels and plinths to conceal them. These are available in standard sizes and can be cut to fit your selection of units.
- Pick from our selection of square-edge worktops on page 76 - available in a range of stylish finishes.
- Choose your handles from page 77 - remember you'll need one for each door or drawer.
- Finish with a back to wall WC (page 20) and a semi recess basin (page 24) for the ultimate stylish fitted solution.

Gloss mid grey with chrome bar handles and gloss white worktop.
